Product description

2 Sided Roll Container – 800x700x1770 mm – Nestable – rent

Metal roll container for rental with exterior dimensions of 800x700x1770 mm and interior dimensions of 800x650x1570 mm. The roll container is equipped with an A-frame construction of galvanized metal. In addition, this nestable roll container is equipped with a gridded base and side fences with textile binders. The size of the mesh in the side gates are 140×145 mm. The dynamic carrying capacity is 500 kg. The roll container is very manoeuvrable and user-friendly due to the two swing and two buck wheels. The wheels are made of PU and the buck wheels are equipped with a closed wheelbox for extra safety. In addition, the walls of the wheels are equipped with noise-reducing elements, so the retail roll container is very quiet.

Placing goods on a roll container is a practical and efficient way for loading, unloading and safely transporting your products.
