Product description

2 Sided Roll Container – 810x680x1680 mm – Plastic Base – rent

This metal roll container for rental has exterior dimensions 810x680x1680 mm and interior dimensions 800x615x1485 mm. This thermally galvanized roll container is scratch-resistant, sturdy and rust-resistant. The roll container is equipped with 2 thermally galvanized metal fences with textile binder and a plastic bottom. The height of the bottom is 185 mm. In addition, the roll container is equipped with four wheels without brake with a Polypropylene (PP) plastic tread, with a diameter of 108 mm. The static load capacity is 500 kg and the weight of the metal container is 35 kg.

Placing goods on a roll container is a practical and efficient way for loading, unloading and safely transporting your products. At Rotomrent you can rent out various roll containers,
