Product description

3 Sided Roll Container – 1150x655x1790 mm – 500 kg Load Capapcity- rent

This metal roll container for rental has dimensions of 1150x655x1790 mm. This thermally galvanized roll container is scratch-resistant, sturdy and rust-resistant. The roll container is equipped with 3 thermally galvanized metal fences and a metal wire mesh base. The gridded roll container is equipped with two shelves as standard, with raised edges. This prevents the products from sliding off the shelves. In addition, the roll container is equipped with four wheels without brakes with a Polypropylene (PP) plastic tread, with a diameter of 108 mm. The carrying capacity is 500 kg.

Placing goods in a roll container is a practical and efficient way for loading, unloading and safely transporting your products. At Rotomrent you can rent out various roll containers, check out our extensive range here.
