Category:

Product description

Two-sided metal rollcontainer – 800x700x1700mm for rent – rubber wheels

.

A very sturdy and at the same time maneuverable mesh cart with a metal base. The walls of this roll container are attached on the longer sides, allowing stable transport of items that are larger than the length of the base. The rollcontainer has 4 rubber wheels with a diameter of 100 mm: 2 swivel casters and 2 fixed casters. Load capacity of the rollcontainer is 400 kg.

.

Ideal roll container for removals

.

This model of roll container is most often rented for removals in offices, schools or warehouses. It will successfully transport documents, plastic containers but also plants, dry

erase boards or paintings. It can be equipped with shelves for more efficient loading.
