Category: Pallets, Wooden pallets,

Product description

Düsseldorfer Wooden Pallet - 800x600x120 mm

This reinforced Düsseldorf pallet for rental has the dimensions 800x600x120 mm. The dynamic carrying capacity of the strong display pallet is +/- 1000 kg and the static carrying capacity is +/- 2000 kg. The wooden pallet is therefore suitable for use in heavy industry and can be used in shops to present products.

The pallet is equipped with 3 skids and its weight is 9 kg. The pallet is made of Central European wood with metal slumbers to strengthen the pallet. In addition, the rental of pallets is environmentally friendly through reuse.

The pallet is ISPM-15 (HT) treated and artificially dried in certified dry treatment rooms for wooden packaging, thus suitable for export outside the EU. The wood is also dried (KD treatment).
