Folding Library Trolley

This is a robust 6 shelved, two sided library trolley designed to hold up 6 meters of books or files. Rubber covered wheels for easy manoeuvrability.

Category:

Product description

Folding Library Trolley

The Library trolley is perfect for library moves or office moves that contain large bookshelves, but is also great for files or records management. The robust 6 shelved, two-sided library trolley is designed to be the same width as a standard library shelf so that books can be moved in their original order and by 6 shelves at once. The folding design helps reduce storage space when not in use and the rubber covered wheels make this manoeuvrable and easy to use.

The folding Library trolley is a great companion to the L6C Metre-Long crate, specifically design to store metre-length library shelves when packing. Check our Library Moves page for more information on Library moves and the products designed to make a library move as simple as possible.

When we have low stock of the folding plastic library trolley, we may supply the metal library trolley. If you have specific requirements, then please contact us to check the availability for specific library trolley hire.

Specification

Outside dimension length (mm)	1070
Outside dimension width (mm)	270 - 540 when extended
Outside dimension height (mm)	1300
Material	Plastic
