### **Product description**

## **Isothermal Roll Container - 715x810x1900 mm - 563L - rent**

Isothermal roll container for rental with exterior dimensions of 715x810x1900 mm and interior dimensions of 550x640x1600 mm. The roll container has its own weight of 100 kg and a carrying capacity of up to 500 kg and a capacity of 563L. This isothermal container is equipped with a steel stainless steel frame in the bottom with two swivel and two fixed wheels with a diameter of 100 mm. This isothermal roll container has an EPDM case in one piece, so it is easy to clean and remains hygienic because there are no grooves and seams. The EPDM housing contains PU insulation foam with a heat conduction coefficient of 0.39W/m<sup>2</sup>.k. The cooling and freezing elements are not supplied as standard with the isotherm roll container.

The isotherm roll container is very suitable for companies working in the food industry. This roll container offers a flexible solution for the safe, temporary storage and transport of food.
