Product description

Isothermal Roll Container - 800x600x1670 mm - 370 L, 500 kg Load Capacity - rent

Isotherm roll container for rental with exterior dimensions of 800x600x1670 mm and interior dimensions of 430x620x1370 mm. The roll container has a weight of 90 kg, a carrying capacity of up to 500 kg and a capacity of 370L. The roll container is ATP certified and has an insulation value of 0.37 W/m².K. This means that the container is labelled by the European Authority for international transport of perishable food. In addition, the roll container meets the food safety requirements and the container has the HACCP certificate. These properties make this container very suitable for the food industry. The container is equipped with a smooth interior, both the inside and outside are completely seamless. The temporary transport roll container is equipped with two swivel and two fixed wheels, with a diameter of 100 mm.
