Product description

L2C Lidded Crate - 600x400x368mm - 64 Litres

The L2C Lidded Crate is slightly smaller than the “standard lidded crate” (the L3C). Our medium L2C crate or “stair crate” is a compact lidded moving container perfect for easier handling on stairs. The L2C crate is a heavy-duty plastic crate featuring integrated lifting handles and an interlocking lid. Designed to store or move items safely and securely while also being narrow enough to use easily on stairs or take up less room in transport and storage.

As standard, this product has:

- Built-in label holder
- Protected inset area for a permanent linear or 2D matrix label
- Textured areas on the lids and front profiles for temporary self-adhesive labels
- Protected RFID tag slot
- Flush lid nesting for minimal storage footprint.

Note: These are used crates and will have signs of wear and tear from usage, but they are in full working order and fit for the purpose of storage or transporting their contents. Please be

aware there may be signs of previous branding and markings on the boxes (example in images).

Specification

Outside dimension length (mm)	600
Outside dimension width (mm)	400
Outside dimension height (mm)	368
Material	Plastic
