Plastic Nesting Container for documents - 1160x480x342mm - open side

A large nested trunk container, used most often in removals for transporting documents. The open side allows you to work even during the move – provides access to documents.

Category: Plastic Boxes, Nesting boxes,

Product description

Plastic document nesting container 1160x480x342mm - open side - for rent

High quality plastic container for transporting documents. Capacity 130L. Made of durable plastic, it offers a considerable amount of space. Special spaces for labels located on the shorter sides

Seated design, additional metal risers

The nested design of the plastic container allows stacking when the container is empty. Thanks to additional metal arches, it is also possible to stack the bins on top of each other – piling – even when they are full of documents. Thanks to extendable arches and special

ribbing in the base, the container placed on top stabilizes in the exact position. Folding down the risers allows nesting of empty containers to save storage space

Ideal for transportation during a move

.

This large plastic container is a great solution during moves in offices, libraries, warehouses or schools. The 1m long base area provides great space for transporting documents in folders. Additional bars will ensure convenient and secure hanging of folders with documents.

.

Uninterrupted access to documents

.

Thanks to the open wall of the container, documents during packing and transportation will be accessible to you and allow uninterrupted work. The containers stacked on top of each other can also create a practical, temporary filing cabinet.

There is no need to use the containers as a storage cabinet.

Specification

Outside dimension length (mm)	1160
Outside dimension width (mm)	480
Outside dimension height (mm)	342
Inside dimension length	1000
Inside dimension width (mm)	370
Inside dimension height (mm)	332
Material	Plastic
