Category: Pallets, Plastic pallets,

Product description

Plastic Pallet - 1200x1000x160 mm - Perimeter Base

Plastic pallet for rental with dimensions of 1200x1000x160 mm. This pallet is suitable for use in semi hygienic applications and intensive use in an open or closed pool. Thanks to the internal hollow spaces, the pallet is very sturdy. The functional design ensures a long life of the plastic pallet. Packaging and pallets based on the collomodular ISO pallet size (1200×1000 mm) ensure optimal use of space when used together in transport and storage. The weight of the Polypropylene (PP) plastic pallet is 21 kg. The payload is 2500 kg, the static carrying capacity is 5000 kg and the racking carrying capacity is 1250 kg.

Placing goods on a pallet is a practical and efficient way for loading, unloading and safely transporting your products.

Specification
