Removals Hand Truck

Heavy-duty metal hand truck for moving stacked crates around. Rubber wheels for ease of use.

Category:

Product description

Metal Hand Truck for Removals

Our heavy duty, metal, sack barrow, or hand truck is a simple yet strong and robust product ideal for making your life easier when moving multiple crates or boxes at once

.

The high back, allows for large loads, or multiple crates to be carried at once. The large heavy duty wheels help manoeuvrability over most terrains. Large sturdy toe is fixed and thin enough to easily slip under crates, making shifting anything much simpler due to its solid construction and stability. The strong metal frame makes this an extremely robust, durable and reliable truck, suitable for long periods of use.

This sack barrow features ergonomic, rubber handles for secure grip, which makes moving heavy loads easier and more comfortable.
