Product description

Attached Lid Tote Box - 78 Liters - 600x400x416mm

Description.

Nestable, stackable plastic attached lid tote box with a 2-part hinged member. The container has the inside dimensions of 540x367x398mm and the outside dimensions of 600x400x416mm. The sidewalls and the base of the container are fully closed with a capacity of 78L. The carrying capacity of this attached lid tote box is 25 kg. And you can stack up to 4 loaded boxes on top of each other with the load capacity of the stack being 100kg.

This box can be used within a temperature range or -20 °C to +40 °C.

When the lid is closed you can stack the tote boxes and when the boxes are empty they can be nested, saving you space during transport or storage. When nested the space-saving or these boxes is 74%.

For transport and storage, it is the most efficient way to place 104 plastic containers on 1 pallet or 1200x900x2550mm. This way 3000 pieces fit in a trailer.

Specification

Outside dimension length (mm)	600
