Category: Metal Boxes, Wire mesh containers,

Product description

Wire Pallet Cage Container – 1200x800x1000 mm – Collapsible, 600 kg Load Capacity – rent

This metal wire container for rental has exterior dimensions of 1200x800x1000 mm and interior dimensions of 1126x769x872 mm. The strong wire container has a carrying capacity of up to 600 kg. The metal of the container is electrolytically galvanized and as a result the container is protected from moisture and bad weather. The mesh container is stackable and collapsible, the folded height is 340 mm. 9 folded wire containers can be stacked on a 3060 mm pile. Because the metal mesh container is collapsible and stackable, a lot of space can be saved during return transport or storage. The wire container is equipped with 1 folding window on the long side and has its own weight is 43 kg.

These wire containers are mainly used for rental in the automotive industry, mussel farms and for the storage of, for example, production waste or parts for the manufacture of cars.
